The Moosbrugger Family

Your Moosbrugger Family

TRADITION & MODERNITY

An Alpine Symbiosis

The Hotel Gasthof Post is a place of indulgence and pleasure. People feel a sense of coming home - in the mountains of Lech, in the traditional rooms of the property and in the hands of the Moosbrugger Family. For more than eight decades, the property has been firmly embedded in the family's history. As deeply rooted as the Moosbruggers are in the region, they also have a keen sense of modernity. The hotel has become an alpine symbiosis that enchants people from all over the world. While in winter the snow-covered landscape glistens in the sunshine, in summer the crystal-clear mountain air touches the hearts of guests who come to Lech. There is a deep feeling that everything is good just as it is - impressions that are collected during the holidays and remain with you for a long time.

Experience the Alps with all your senses.
TRADITION & MODERNITY

Harmony comes from balance - a little bit of everything. The light lives through the darkness. A sunrise after a starry summer night touches people. Deep insights and refreshing views characterise the days in the mountains. Our concepts are also based on this natural harmony.

The four elements - fire, water, earth and air - both ground and inspire what we do.

Inspired by the impressive mountain landscape, we bring these qualities to life at the Hotel Gasthof Post.

"If you want to be beautiful, you have to laugh"

With us, surrounded by the Lech mountains, the heart laughs all by itself...

Summer retreat in Lech

The element of water characterises the landscape around the Hotel Gasthof Post as much as the property itself. The glistening mountain lakes in the region cast a spell over people.

When the surrounding landscape is reflected in the crystal-clear water, the scenery is reminiscent of the setting of ancient fairy tales. A feeling of coming home and connection arises. Experience nature in all its many facets – especially on hot summer days, the tranquil lakes, bubbling streams and impressive rivers refresh body and soul. Water is one of the most precious resources that nature has to offer. Fresh from the spring, it is a blessing that penetrates deep into our cells.

Did you know ...?

Thanks to the location of the Hotel Gasthof Post in Lech, our guests not only enjoy refreshing mountain experiences, but also a particularly pleasant climate. In the Alps, at an altitude of over 1,400 metres, the nights provide pleasant cooling. While over 50 tropical nights were recorded in many places in summer 2024, there was just one night in Vorarlberg when temperatures did not drop below 20 degrees.

READY FOR NEW ADVENTURES?

Refreshing summer holidays in the mountains

The wide range of activities make the region around the Hotel Gasthof Post a true paradise for all water lovers. These conditions ensure real enjoyment even on the hottest summer days. Whether you want to admire the mountain lakes alone in peace and quiet, stroll through the Ebra Park and enjoy the view, or dive into the cool water with the whole family – you can look forward to countless opportunities to be close to the element of water.

COOLING OFF IN NATURE

Pure refreshment

The mountain landscape around the Arlberg is characterised by lush mountain meadows and crystal-clear lakes. The bubbling mountain streams not only offer a refreshing cool-down but are also a real highlight for the eye.

SPRING. SUMMER. AUTUMN.

A portrait of the seasons

Spring brings new beginnings, summer abundance and autumn cosiness. What all seasons have in common are the moving views and the majestic peaks as silent observers. A holiday in the mountains is characterised by liveliness, accompanied by a deep rootedness in nature. This can be seen in all its facets: “Typically Spring”, say the locals, when the mountain streams swell with snow water. “Yes, that's summer”, say the Alpine herdsmen and dairymen as soon as the first blueberries ripen. “Autumn is coming” say the people in the valley, when the shadows get longer and the colours even richer.

Whether hiking, biking, mountaineering, climbing, swimming or letting your gaze wander into the distance – countless activities make your time in the mountains unforgettable.

Hiking in Lech

- » Hundreds of kilometres of hiking trails for all levels
- » Refreshing cooling off in crystal-clear mountain lakes & in the forest swimming pool
- » Signposted hiking routes for the whole family
- » Summer mountain lifts for comfortable summit conquests
- » Events and cultural events
- » Regional specialities and alpine ambience in rustic huts

Golfing on holiday in the mountains

- » 19-hectare, 9-hole course is Austria's highest golf course
- » Driving range & golf school
- » Exclusive golf club
- » Regular tournaments for locals and guests
- » Play on one of the most beautiful golf courses in the Alps

“In the simplicity and silence of nature, people find their vital force.”

Julius Waldemar Grosse

Our tip: New adventures as part of the weekly program with Arlberg Alpin!

The weekly program offers varied activities for the whole family. Archery, e-biking, canyoning, climbing and much more can be experienced, some of them free of charge, with the Lecher Outdoor Card that you receive as our guests.

SPRING IN THE MOUNTAINS

When the snow fields recede and the first flowers and herbs begin to sprout, you know that mountain spring is on its way. There is a gentle silence on the mountain pastures and the ever-warmer sun bathes the valley and the surrounding peaks in a touching light.

Spring is the ideal time for leisurely exploratory tours through the mountains. Accompanied by the murmur of mountain streams filling with snow water, heralds of spring pave the way.

EXPERIENCE SUMMER WITH ALL YOUR SENSES

It often happens very quickly: seemingly suddenly, the meadows fill with summer flowers and alpine herbs, the leaves on the trees burst into lush green and the days get warmer and longer.

Hiking tours, bike routes and running trails create the perfect setting for training in the midst of nature. The magical landscape is reflected in the numerous mountain lakes, which invite you to enjoy a refreshing dip. Fishing, climbing, archery and much more will create unforgettable memories with your family.

DELIGHTFUL AUTUMN

Autumn in the mountains is something very special. The temperatures create the perfect setting for extensive mountain tours. The sun bathes the landscape in a golden light and it becomes quieter on the peaks. A cosy atmosphere slowly settles over the valley.

What we love so much about autumn is the symbiosis of activity and pure relaxation. After impressive hours on the mountain, put your feet up in a cosy bathrobe, read a new book and enjoy the direct view of autumnal nature with a glass of red wine.

CONTEMPLATION OF THE ESSENTIALS

Life Energy Lech

Nature inspires. It allows us to calm down and listen to ourselves. Inside and out – in one of the most beautiful places in the Alps, it's particularly easy to reconnect with yourself.

In a world that is characterised by external influences, it is often precisely the silence of the mountains that grounds us again. The region is a natural paradise – full of abundance, vibrancy and wonder in summer.

In addition to this invigorating basic vibration, there are five designated power places around the Hotel Gasthof Post.

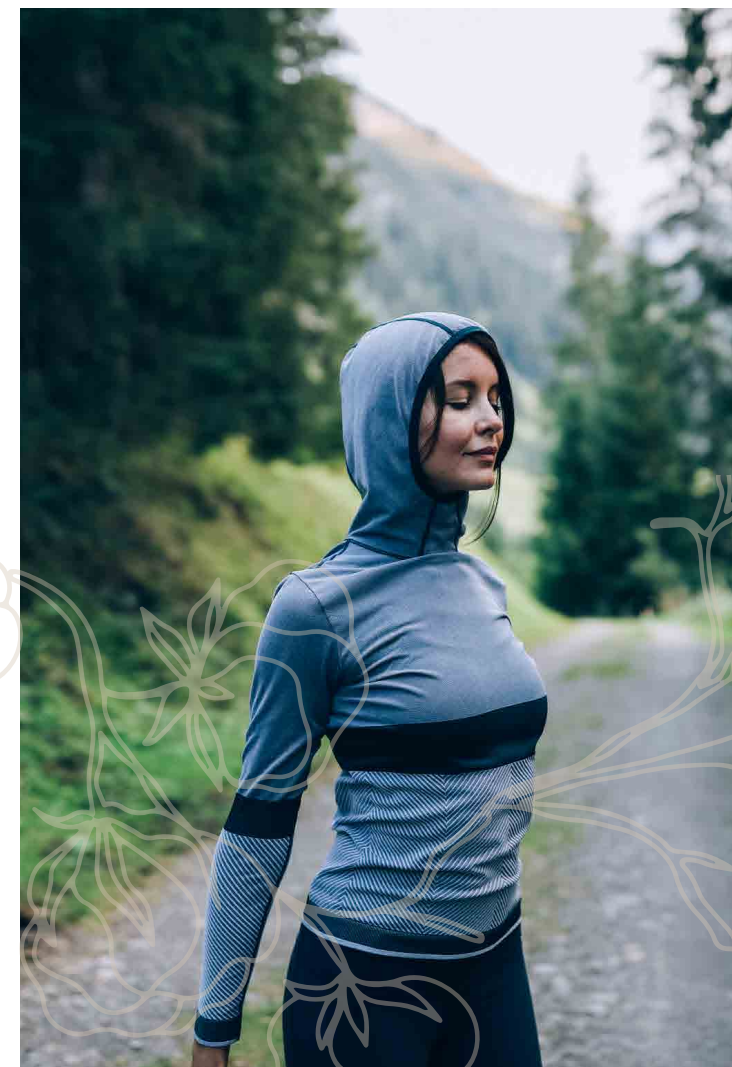

About Grounding & the Earth in Lech

"The only way to live is to accept every minute as an unrepeatable miracle"
Tara Brach

The natural paradise around the Hotel Gasthof Post offers countless places to come to rest and ground yourself.

The tranquillity and the impressive scenery make the connection to nature and your own roots tangible again. The fresh air, the variety of local herbs and the view promote relaxation and calm the nervous system. Regular yoga sessions support regeneration and harmonise body, mind and soul. In Lech, you have the opportunity to take part in yoga classes or enjoy yoga sessions in peace and quiet all to yourself.

LAKE FORMARINSEE & LECHWEG TRAIL

Nestled in the majestic mountains, Lake Formarinsee is a true power place and also the starting point of the Lechweg trail – a hike on which the special effect can be clearly felt.

THE WATERFALL IN ZUG

The sound of the water and the pleasant air make this a special place for those seeking peace and quiet. The power of the falling water has a cleansing and revitalising effect.

THE LECH RIVER TRAIL

The combination of water, gravel banks, fresh air and the power of the forest makes the Lechuferweg trail a true paradise for anyone who wants to recharge their batteries. The trail runs alongside the River Lech and passes the popular barbecue site and the forest swimming pool.

THE "GYPSUM HOLES" NATURE RESERVE

The area is characterised by deep craters and an unparalleled variety of orchids. Over 1,000 sinkholes adorn the landscape, which attracts people from all over the world as well as numerous marmots.

LAKE BUTZENSEE

A visit to the mountain lake at 2,124 metres is balm for the soul. The natural high mountain lake invites you to take a refreshing break on hot summer days. The marvellous mountain air also helps to create unforgettable impressions.

OUR RECOMMENDATION

Visit the Freiburger Hütte on Lake Formarinsee!

The view has already earned this place the "Most Beautiful Place in Austria" award and provides locals and guests alike with unforgettable moments of indulgence at an altitude of almost 2,000 metres.

The concept is based on the motto "Nature pure. Unspoilt and wild." And it doesn't promise too much: Only the best products are served here!

TRADITION AND PASSION

The Schloss Gobelsburg Winery

Schloss Gobelsburg, the oldest winery in the Danube region of Kamptal, is located in the renowned wine region of Langenlois in Lower Austria.

Viticulture has been practised here since the 12th century – since then, first monks and now the current winegrowers, Michael and Eva Moosbrugger, have cultivated the vineyards with great care. The different soils and the favourable microclimate of the sun-drenched terraced sites, such as the Zöbinger Heiligenstein and Gaisberg, provide ideal growing conditions for the wines.

Under the management of the Moosbrugger family, the winery has earned numerous awards from renowned wine connoisseurs for its high-quality wines. Sustainable viticulture and careful care of the vines are always in the foreground. Particularly noteworthy are the sweet wines and the “traditional” wines, which use historical methods of winemaking. For the future, Schloss Gobelsburg relies on foresight and sees the climatic and social changes not only as challenges, but also as opportunities for new methods and grape varieties in order to continue the valuable wine cultural heritage.

The winery supplies hotels, restaurants and top companies all over the world – of course the family's wines are also presented at the Hotel Gasthof Post.

IN CONVERSATION

with Sommelier Miroslav Kalinic

In the midst of the breathtaking Alpine landscape, the “Post” has not only established itself as a first-class hotel, but also as a place where wine lovers get their money's worth.

In the following conversation, our long-standing employee Miroslav Kalilnic reveals why he chose the profession of sommelier and what he personally values most.

How did you become a sommelier? Was it always your dream career?

I met Victor Papadopoulos, the owner of La Maison du Vin in Limassol, Cyprus, 25 years ago and he became my mentor, passing on his extensive knowledge and passion for wine to me. He recognised my sommelier talent, which was proven a few years later when I won the most prestigious award, the Ruinart Trophy, as the best sommelier in Cyprus. My dream was to travel the world, meet new people, discover many different cultures and immerse myself in the wide world of wines and culinary delights.

What training did you complete to become a sommelier?

I have the professional sommelier diploma ASI, as well as the WSET 3 advanced level London and I am in the Court of Master Sommeliers Europe.

Was there a particular moment or experience that inspired you to become deeply involved with wine?

The 2005 Trophée Ruinart competition for the best sommelier in Cyprus. And I was a candidate representing Cyprus at the Trophée Ruinart 2006 in Paris! My first trip to Champagne with a visit to the Ruinart champagne maison!

What makes working at the Hotel Post Lech special for you? Is there anything that sets this property apart from others?

“Find a job you love, and you'll never have to work a day in your life”. Every day when I come to work, I feel like I'm coming home!

Is there something that sets this hotel apart from others?

The warm, family atmosphere, our valued guests, the tradition, the wine and food selection and, above all, the unique team that I am proud to work with!

How do you organise the wine selection for the hotel's guests? Do you have specific criteria for selecting wines?

The only criterion is to satisfy every palate and create an ultimate experience and constant discovery with wines of the world with a unique profile, authenticity and endless sensations.

Are there any particular challenges or satisfactions that come with dealing with an international clientele?

The challenge is to fulfil guests' expectations and find the perfect food and wine pairings! First of all, we have to travel with our guests through different wine regions to open their eyes to different perspectives. Imagine a guest who says to you: ‘I hate Chardonnay’?! It's a challenge to convince them to try different Chardonnays made in unusual ways,

something they've never tried before. In the end, we always find a suitable wine, even from Chardonnay grapes, which they usually like! It's a pleasure to meet all our guests and share their knowledge and experiences, hear wonderful stories and learn something new.

What role does the Lech am Arlberg region play in the hotel's wine selection?

The Arlberg is located in the centre of Europe, so in addition to the selection of Austrian wines, we also have an emotional connection to wines from France and Italy.

Is there a winemaker or winery that you particularly appreciate and why?

All winemakers are artists, and I enjoy and love their art!

What was the most impressive wine you have ever tasted and why?

That's a story I can tell while I'm in the restaurant serving our honoured guests.

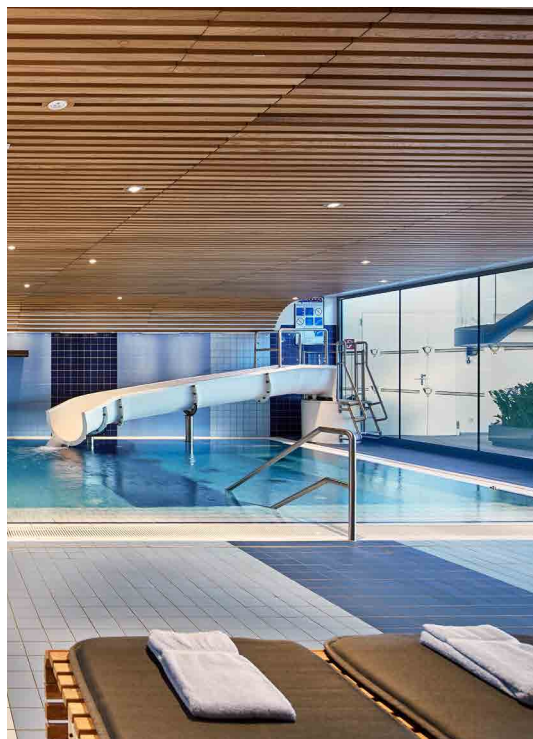

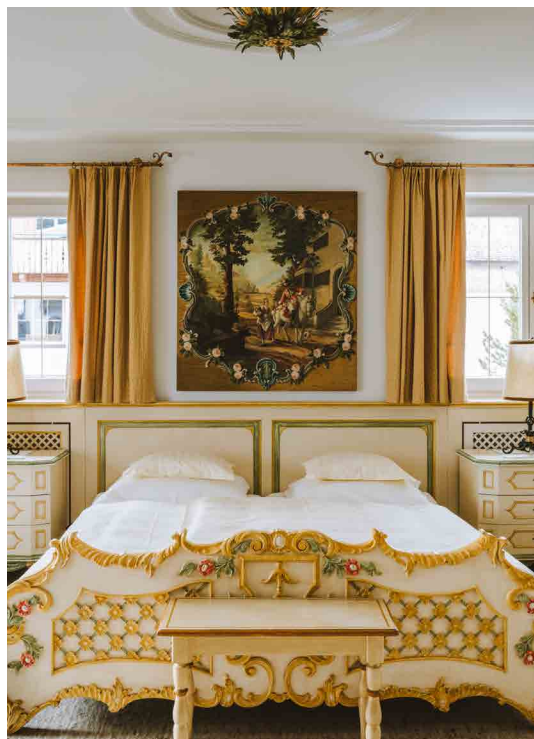

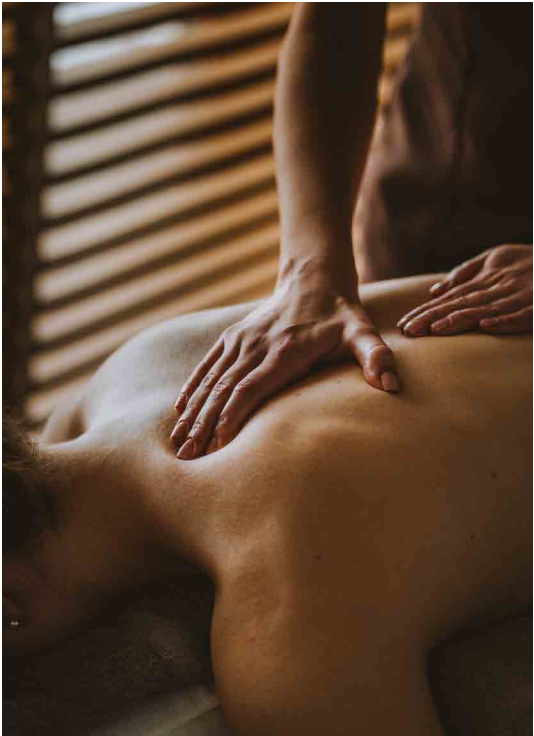

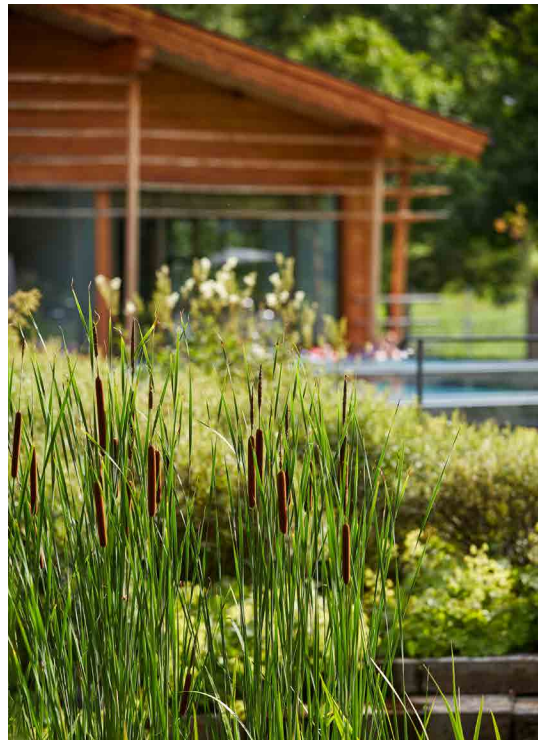

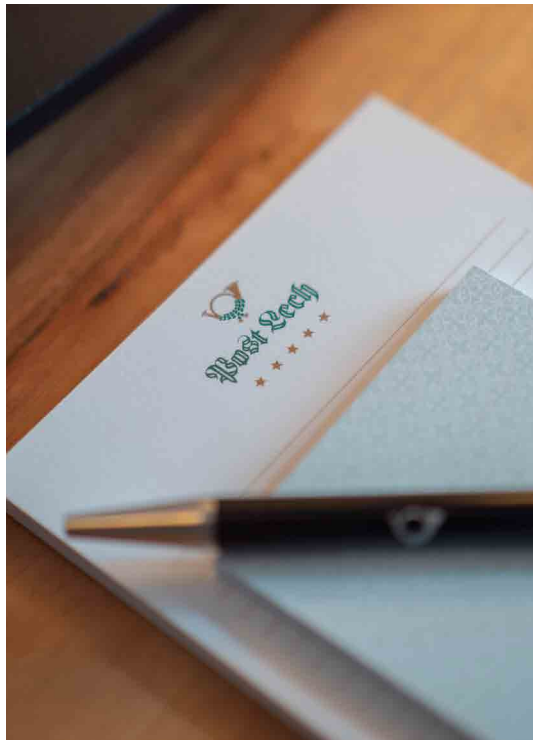

IMMERSE YOURSELF TOGETHER WITH US IN A DELICIOUS JOURNEY.

THE POWER OF THE ELEMENTS
Fire

Transforms,
changes,
warms the soul.

On hot summer days, when the sun elicits the most beautiful scents from the herbs and plants in the meadows of Lech, you can feel the power of fire just as much as on rainy days, when you snuggle up in your bathrobe in the warm Wellness area and watch the drops on the windows. Or when you enter the hot rooms of the sauna.

Fire is a particularly versatile element, much like the Alps themselves. It can destroy and transform at the same time. Old things go, new things can emerge.

CELLCOSMET - THE HIGHEST STANDARDS
FOR YOUR HEALTH

With a scientifically based approach, Cellcosmet combines natural active ingredients with state-of-the-art cell technology to offer the skin optimum care and regeneration. The focus is on revolutionary cellular cosmetics that respond to the individual biology of the skin and thus achieve visible anti-ageing results.
